

# RAFAEL MENEZES DE SANTANA

## FULL STACK DEVELOPER

Palmas, Tocantins | (63) 98437-8326 | menezesrafaelsantana@gmail.com  
LinkedIn: linkedin.com/in/rafael-menezes-de-santana-344802234 | GitHub: github.com/rafelms  
Portfolio: portfolio-web-rafaelms.vercel.app

### PROFESSIONAL SUMMARY

Full Stack Developer with a strong domain in the Java and Spring Boot ecosystem, dedicated to building robust, scalable, and highly maintainable APIs, integrated with dynamic and responsive interfaces. Experience in software architecture based on Clean Code, application of Design Patterns (Factory, DTO), and SOLID principles. Strong expertise in data persistence with Spring Data JPA/ Hibernate, focused on query optimization and modeling complex business rules. Skilled in coordinated development with automated testing (unit and integration tests with JUnit and Mockito) and creation of modern frontends using React, TypeScript, and Tailwind CSS.

### PROFESSIONAL EXPERIENCE

#### Government of the State of Tocantins

March 2026 - Present

##### Full Stack Developer

- Engaged in the development and maintenance of government systems using Java, Spring Boot, React, and TypeScript.
- Coordinated development with automated testing, implementing unit and integration tests with JUnit and Mockito to ensure stability, security, and high code coverage.
- Implementation of complex business rules and integration of RESTful APIs to optimize state public processes.
- Focus on data security and query performance in relational databases with Hibernate (Join Fetch and efficient pagination).

#### Tiradentes High School

August 2023 - February 2026

##### Administrative Assistant

- Management of academic databases and institutional administrative documentation.
- Student data analysis and advanced organizational support using Excel and productivity tools. Development of solid interpersonal skills, workflow organization, and assertive communication.

### TECHNICAL SKILLS

|                                                                            |                                                                    |
|----------------------------------------------------------------------------|--------------------------------------------------------------------|
| <b>Languages:</b> Java (8+), TypeScript, JavaScript                        | <b>Testing:</b> JUnit, Mockito, Unit Testing, Integration Testing  |
| <b>Backend:</b> Spring Boot, Spring Data JPA, Spring Security (RBAC/Roles) | <b>Frontend:</b> React, Tailwind CSS, HTML5, CSS3                  |
| <b>Databases:</b> MySQL, PostgreSQL, JPQL, Hibernate (Join Fetch, N+1)     | <b>Methods:</b> Clean Code, SOLID, MVC, Design Patterns, REST APIs |
| <b>Tools:</b> Git, Maven, Docker (basics), Postman, Insomnia               | <b>Languages:</b> Portuguese (Native)   English (Advanced)         |

### EDUCATION

#### IFTO - Federal Institute of Tocantins

September 2024 - December 2027 (Expected)

Associate Degree in Internet Systems (Currently in 3rd Semester)

## **PROJECTS & TECHNICAL HIGHLIGHTS**

---

- **Advanced Data Modeling:** Solid experience with complex mappings of relational entities and high-performance efficient pagination in the database.
- **Advanced Security:** Refined access control for endpoints based on corporate rules (RBAC - Role Based Access Control) and secure session management.
- **Quality & Testability:** Continuous application of advanced code refactoring techniques, class decoupling, and systematic coverage with unit tests to ensure long-term sustainability.
